Schuld's descendants and is a leading developer and manufacturer of air filters that are used in heating and air conditioning systems.

As part of the acquisition of RPS Products, the company is being integrated into Freudenberg Filtration Technologies, L.P. and will continue operating under that name. "From now on, we are part of the Freudenberg Group. This is presenting us with new growth opportunities. We are especially happy to be part of a global company with technological expertise and the capacity to innovate, along with strong values and principles," said Dan Schuld, CEO and former co-owner of RPS Products.

About Freudenberg Filtration Technologies

As a global technology leader in air and liquid filtration, Freudenberg Filtration Technologies develops and produces high-performance, energy-efficient filtration solutions which improve the efficiency of industrial processes, conserve resources, protect people and the environment and thus enhance the quality of life. With its Viledon and micronAir global brands, Freudenberg Filtration Technologies offers customers innovative filter elements and systems for the energy and resources, hygiene and health, automobile and transport, production and building technology sectors, and for highly-specialized applications. In 2020, Freudenberg Filtration Technologies generated sales of €519.4 million and employed 2,853 people at year end.
