Future-oriented technologies for the energy transition: Federal Chancellor visits Freudenberg Group

Investments totaling millions of euros: tour of the production facility for gas diffusion layers, a key component for fuel cells and electrolysis units

Visit to the Training

to change. We need all this in our country, which is facing enormous changes."

During a tour of the production facility, the Federal Chancellor was able to gain an impression of future-oriented technologies. Freudenberg is the only manufacturer in Europe that completes the entire production process for

(Baden-Württemberg Cooperative State University) in
Mannheim.

About the Freudenberg Group

Freudenberg is a global technology group that strengthens its customers and society long-term through forward-looking innovations. Together with its partners, customers and research institutions, the Freudenberg Group develops leading-edge technologies and excellent products and services for about 40 markets and for thousands of applications: seals, vibration control components, battery and fuel cell, technical textiles, filters, cleaning technologies and products, specialty chemicals and medical products.

Innovation strength, strong customer orientation, diversity, and team spirit are the cornerstones of the Group. The 170-year-old company lives by its core values: a commitment to excellence, reliability and pro-active, responsible action. In 2022, the Freudenberg Group employed more than 51,000 people in around 60 countries with a turnover of 11.7 billion. For more information, please visit www.freudenberg.com.
