

With the acquisition, Freudenberg Xpress is thus further expanding the capacities of its existing core business with CNC-turned products. "In addition, complementary manufacturing processes for small and medium production volumes will allow us to increase our service promise in the area of customer-specific product solutions," Grünschloß continues.

The acquisition also allows a significantly expanded range of Freudenberg's own materials to be included in the Freudenberg Xpress portfolio, explains Grünschloß. "Freudenberg's materials competence and expertise are currently more in demand than ever. It is therefore a strategic decision for Freudenberg Xpress to make even greater use of this capability in order to offer even better solutions tailored to the customer."

About the Freudenberg Group

The Freudenberg Group is a global technology group that strengthens its customers and society long-term through forward-looking innovations. Together with its partners, customers, and research institutions, the Freudenberg Group develops leading-edge technologies and excellent products and services for about 40 markets and for thousands of applications: seals, vibration control components, technical textiles, filters, cleaning technologies and products, specialty chemicals, medical products, batteries and fuel cells.

Innovation strength, strong customer orientation, diversity, and team spirit are the cornerstones of the Group. The 175-year-old company lives by its core values: a commitment to excellence, reliability and proactive, responsible action. In 2023, the Freudenberg Group employed over 52,000 people in around 60 countries worldwide and generated sales of more than €11.9 billion For more information, please visit <https://www.freudenberg.com>
